THURSDAY MORNING

The Comment of the man's audden death. It being suggested to send for a medical expert, a messenger was dispatched to one of our leading physicians, who, upon arriving at the scene, decided that a post morten examination would be necessary in order to reach an intelligent conclusion. An opening was made in the man's stomach, and after a careful analysis, oh! horror of horrors! the Doctor announced that the man had died from the effects of poison. The jury after, deliberating over the matter for some time, finally came to the conclusion that no foul play had been practiced on the deceased, but that death had been caused, no doubt, by the man's having eaten bread in which an impure and unadulterated baking powder had having eaten bread in which an impure and unadulterated baking powder had been used.
